has your **billing**?

7 reasons why you
should choose
Tekton Billing...

Refreshingly different,
award-winning billing
software

ZOEY is an innovative software solution that is setting the standards within the billing space. It helps customers improve their billing, enrich their customer experience and maximise margins.

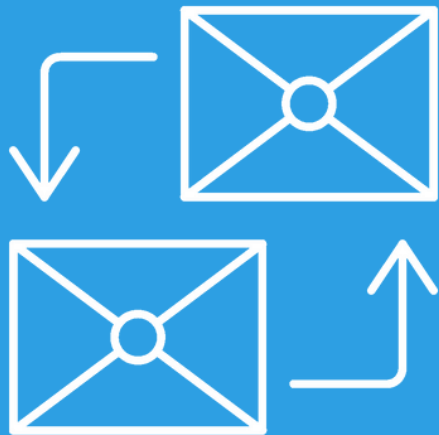

All-inclusive pricing –
no hidden extras

The most comprehensive
Bureau Service available.
Pricing includes
unlimited users, secure
hosting, RPI increases,
fully branded customer
portal and carrier
network API integrations.

Seamless migration and system training

Fine-tuned migration process that is fully managed by our experienced billing experts. We complete all customer migrations within 8 weeks and give full access to ZOEY's training portal.

Batch updating to increase productivity

Enhanced batch and bulk update functionalities for services, ratings, cost centres, usernames, contract end-dates and more. Increase productivity and reduce human error.

Fully branded customer portal for self-service functionality

Strengthen brand awareness and credibility with a fully branded customer portal. Allow end-customers to view bills, analyse spend, set alerts and manage their estate.

Friendly and knowledgeable support team

Unparalleled service delivered by our expert team with 100+ years of billing experience. We manage your day-to-day billing, so you can focus on strategic projects such as bundle optimisation and margin increases.

You-Grow We-Grow model

Supporting our partners' success is our number one priority. Subscriptions are based fairly on a modest percentage of our partners' revenue, promoting a grow together model.

Are you ready to revolutionise your billing?

“

The team at Tekton have been brilliant with our system migration project. Knowledgeable, thorough and very helpful and quick to respond. The system itself blows the other systems I've used out of the water and makes the billing process quick and easy.
